

Dialectic Journal 2- Novel Name _____ Chapter(s) _____

Directions: Choose **five** interesting quotes from the novel you choose (keep in mind you will need to complete six of these journals for a total of thirty quotes) and respond to each quote in two to three complete sentences. The responses should explain the deeper meaning of each quote, for example: what it means in helping understand the characters, the story, the author’s purpose, the time period, or even what it means to you personally. What it isn’t is a restatement of the quote itself. You aren’t telling me what the quote means; you are giving me the deeper meaning, which is very different. **The response is worth 70% of the total grade.**

<u>Chosen Quote</u> – Complete sentences, correctly punctuated with quotation marks	<u>Response</u> – Complete sentences 2-3 sentences in length explain the deeper meaning of the quote in reference to the story itself, the author, the time period, the literary movement, or to you personally.
